SUMMARY

- Pursuing MTech in Computer Science from Malaviya Institute of Technology, Jaipur
- Former Application Developer at Cognizant with more than 2 years of working experience in Web App Development using C# .NET, SQL Server, MVC, Web API, and front-end technologies.
- 2017 Graduate in Electrical Engineering with a demonstrated history of working in Robotics, Embedded System, Image Processing, and IoT.
- Skilled in Deep Learning, Web App Development, and many other technologies.

EDUCATION

Course	Institute	University	Duration
MTech (CSE)	Malaviya National Institute of Technology, Jaipur	MNIT Jaipur	2020 - 2022
B. Tech (EE)	Jaipur Engineering College and Research Centre	Rajasthan Technical University	2013 - 2017

SKILLS

- Technologies – Web App Development, Deep Learning, Image processing, Embedded Systems, Robotics, IOT
- Programming Languages - C, C++, C#, Python, JavaScript, HTML, CSS
- Database - MS SQL Server, IBM DB2
- Frameworks - Bootstrap, C# .NET, ASP .Net, MVC, WebAPI (REST), Entity Framework
- Tools & Others - GitHub, Visual Studio, MATLAB

TRAINING & CERTIFICATION

Course	Institute	Duration	Year
Deep Learning (ML)	One Fourth Labs	6 Months	2019
Summer Training (IOT)	National Remote Sensing Centre, ISRO	2 Months	2016
Embedded System	Edubotix Innovation Labs	2 Months	2014
Robotics	Edubotix Innovation Labs	3 Months	2013

PROFESSIONAL EXPERIENCE

Company: - Cognizant Technology Solutions

Role: - Software Developer

Duration: - Mar 2018 - OCT 2020(2 years 8 months)

Technologies: C# .Net, SQL Server, DB2, ASP .Net, MVC, ADO.Net, WebAPI

ACHIEVEMENTS & RESPONSIBILITIES

- **Microsoft Student Partner** (2015-2017).
- **NIYANTRA 2015** finalist (a Student Engineering Design Contest by **National Instruments**).
- **GATE(CSE) 2020** Qualified with score 488/1000 and All India Rank 4612 out of 97481

MAJOR COLLEGE PROJECTS

- Advanced ATM Protection System - <https://www.youtube.com/watch?v=93Rurpa4QJk>.
- Gesture Controlled Laptop using Image Processing- <https://www.youtube.com/watch?v=hCsumxL33Ck&t=9s>
- Remote Environment Sensing – Weather station using IOT made for NRSC, ISRO.
- Brain Controlled Robot – Robot controlled by brainwaves, using Neurosky Mindwave and EEG technology.
